

Food Production in Americas Dairyland & NASCO

This tour showcases three southeast Wisconsin businesses. Crave Brothers Dairy and Crave Brothers Farmstead Cheese in Waterloo have received international awards for their family farm management, energy-saving and earth-friendly technologies and tasty artisan cheeses. On the way to the farm we'll discuss how food producers in Wisconsin are adapting their practices to meet consumer demand. After a tour of the farm and cheese factory you will have demonstrations and lunch in the cheese plant's tasting kitchen. Following lunch we're off to Fort Atkinson to Nasco International, where they offer 30 mail order catalogs with more than 65,000 products for consumers, educators, nutritionists, health care providers, researchers and more. Enjoy the tour, see a demonstration, and browse the Nasco outlet store's selection of arts and crafts and FCS products. A quick stop at the Hoard Historical Museum will show local pioneer history and explain how Wisconsin became America's Dairyland.

COST: \$75
